

ICLEI's Race to Zero Dialogue Leadership and Action from the city of Turku

29 July 2020

Turku on schedule to become climate positive

Where we started

We are here!

Our timeline:

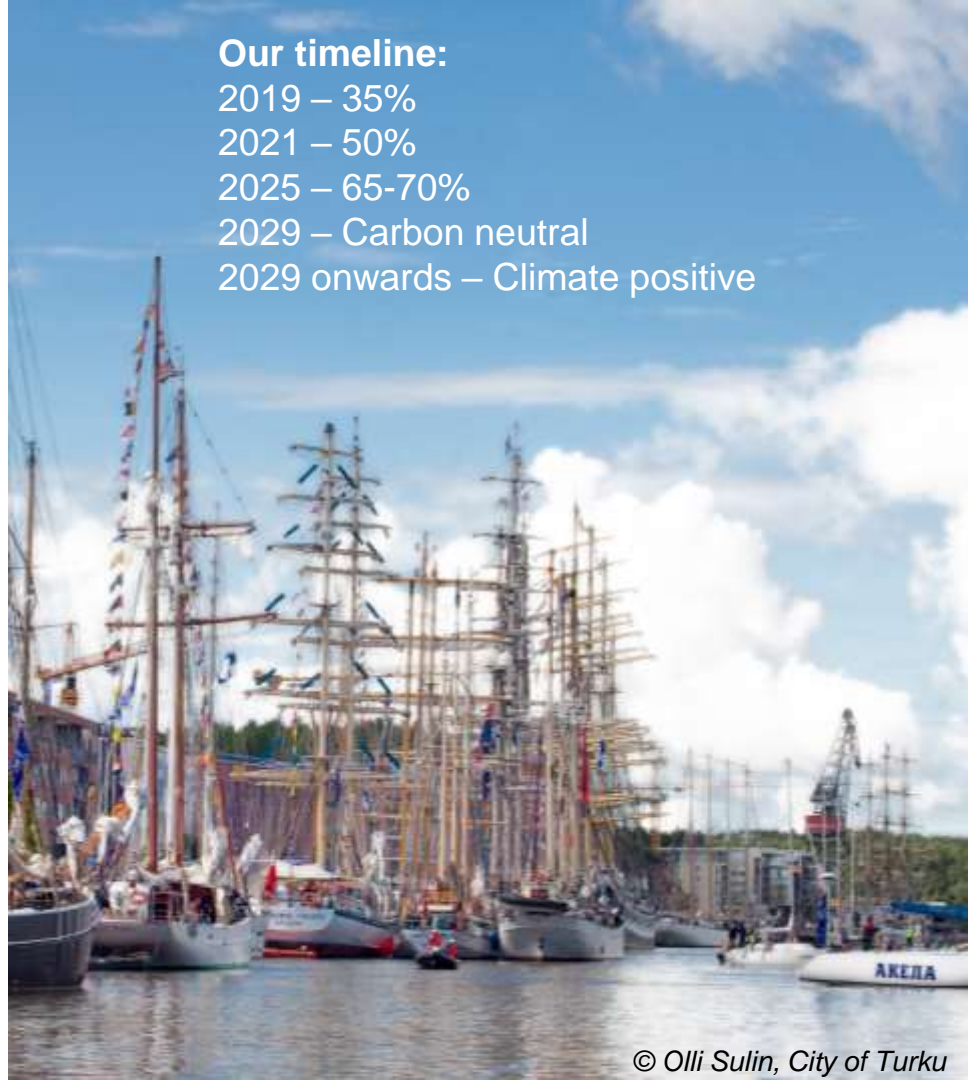

2019 – 35%

2021 – 50%

2025 – 65-70%

2029 – Carbon neutral

2029 onwards – Climate positive

Turku on schedule to become climate positive

We make it happen by investing in:

- Renewable energy production
- Low-carbon transport system
- Sustainable urban development
- Circular economy transition
- Strengthening carbon sinks

Local
compensation
model under
development

Our timeline:

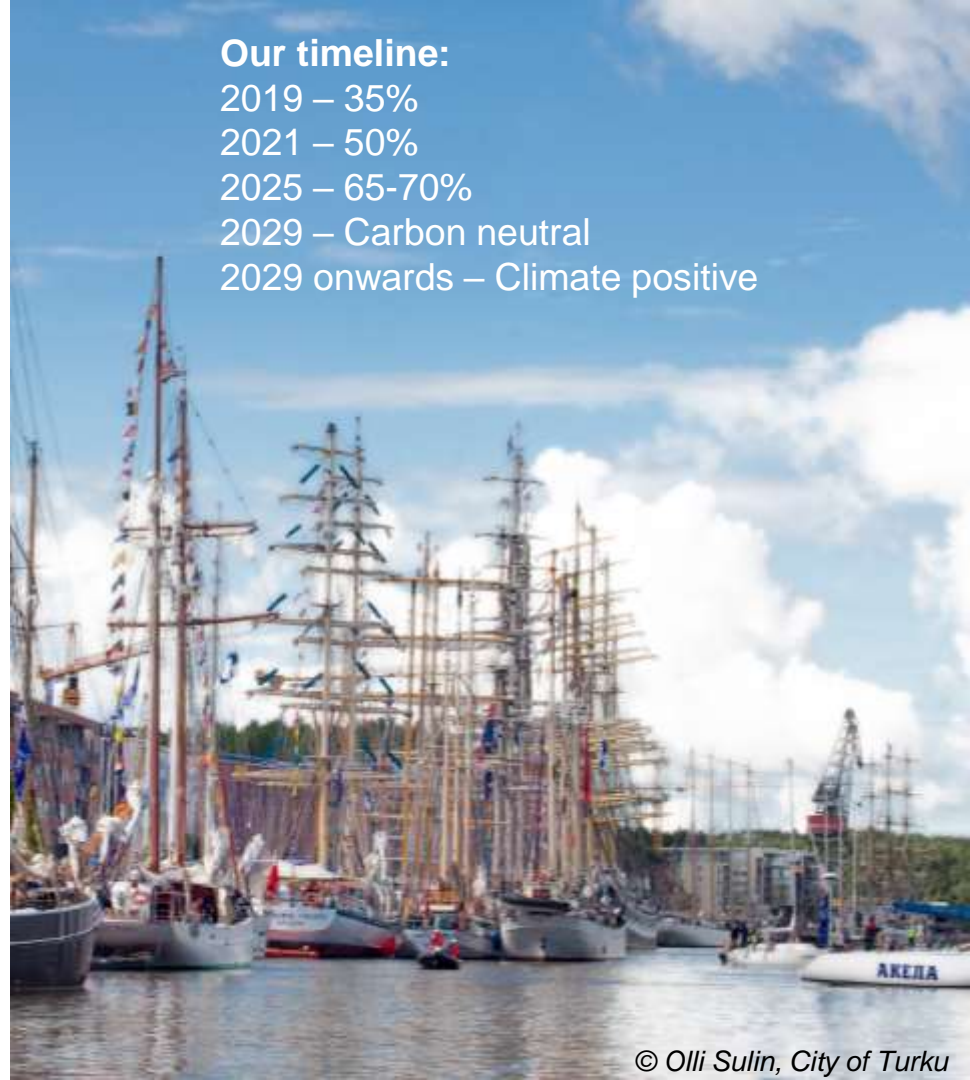

2019 – 35%

2021 – 50%

2025 – 65-70%

2029 – Carbon neutral

2029 onwards – Climate positive

Circularity as a tool to become climate positive

Pathway 1 -
Closing resource
loops across
value chains

Pathway 2 -
New clean
sources of
energy

Pathway 3 -
Protecting
carbon
sinks

Turku is working with ICLEI on developing the **Circular Turku** roadmap for release in 2021.

Towards 1.5 degree life in Turku

Changes in consumption patterns and lifestyles are crucial to reach climate targets.

With 1.5 degree life we mean circular and climate friendly ways of living.

Stay tune for the launch of our 1.5 degree life campaign at ICLEI's Daring Cities 2020!
