Reflections on 2020 achievements & ambitions for 2021

Stay Connected

CitiesWithNature is a first-of-its-kind initiative that:

- **Demonstrates** innovative ways of engaging cities and regions, partners and individuals on urban nature
- **Provides** a platform for knowledge sharing and learning on the critical importance of nature in urban life
- **Offers** a space for collective action at the local level to realise global impact
- **Invites** partners to come on board and shape the initiative going forward e.g. the development of a pathway on the critical importance of urban parks
- **Grows and strengthens** a virtual community of practice that is resilient to crises and is not dependent on physical space or in-person interaction
- **Facilitates** mainstreaming of nature in and around our cities to secure our increasingly urban future
